ALPHANUMERIC STAMPS

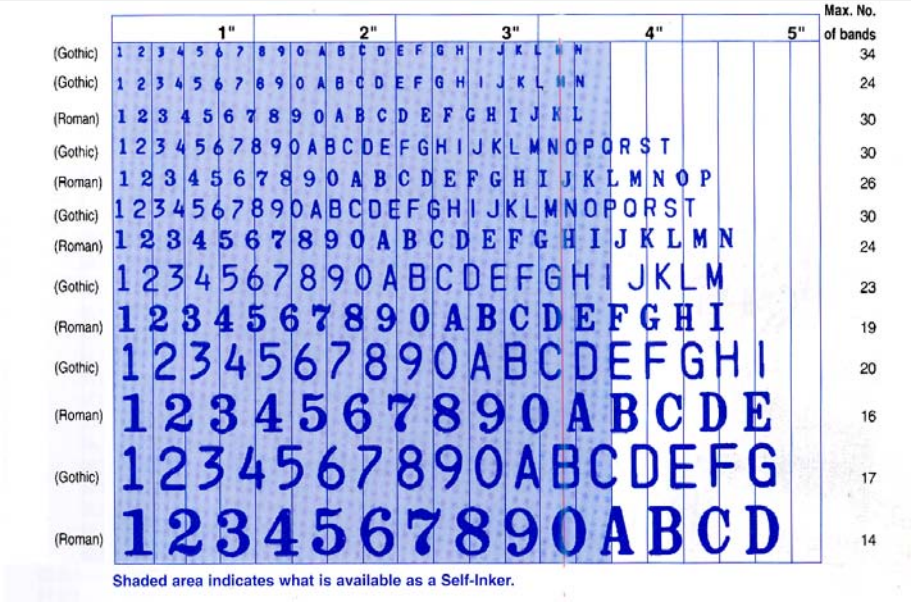
Available in 28-Character (Alphabet-Only Band or Number+Fraction Bands) or
38-Alpha-Numeric (A-Z + 0-9 + period and dash)

Can contain up to 34 bands (in smallest band size! Create small phrases.

Requires stamp pad.

28-Character Alphabet-Only Band Size Chart

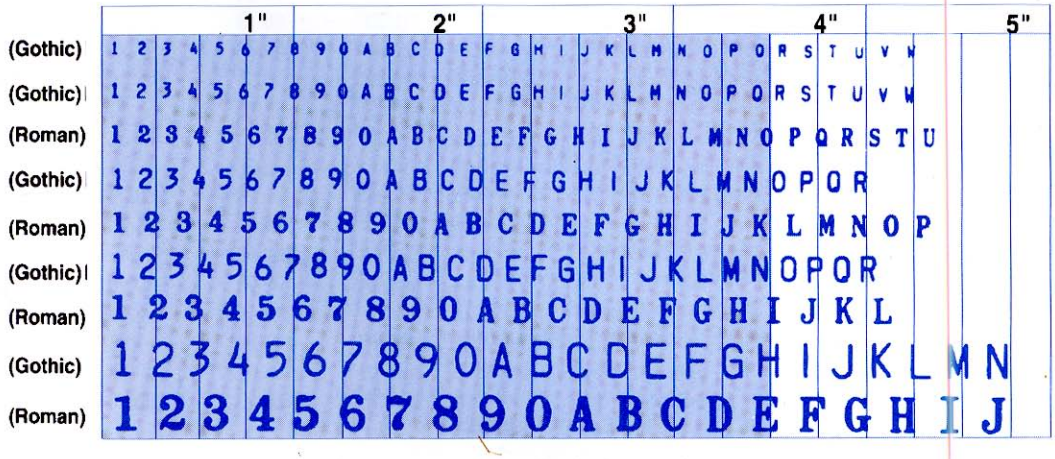


Shaded area indicates what is available as a Self-Inker.

38-Character AlphaNumeric Band Size Chart

For complete versatility...each band contains 38 characters: the complete alphabet, the figures 0 through 9, plus a period and a dash. See table below for maximum capacity of bands per stamp.

To order, Specify: 1) Type Size 2) Number of Bands & 3) Style Number of Bands in the order you want them.



Shaded area indicates sizes and number of bands available on BDA Self-Inking Stamps.
BDA Self-Inking Stamps are available in Gothic only.

AUTO NUMBERING MACHINES

Auto Numberers

An excellent tool for stamping of continuously incrementing numbers.

From 5 to 13 wheels in either 3/16" or 11/64" sizes, and two typefaces (Roman and Gothic)

Numberers contain lever to set how many presses are required to advance the number (0=never--always print same number, 1=advance after single press, 2=advance after 2 presses, etc).

Stamp Pad is required.

Tally Counter

Handy for keeping accurate count manually. Counts up to 9999 times.

Pro-Line Heavy-Duty Numbering Machine

Water and Oil Base Inks

"W" Oil-Base Marking Ink

Deep, vibrant impression colors

- Colors Available: **Black**, **Red**, **Blue**, **Green**, **or** **Purple**
- Premium oil-base stamp ink for easy re-inking
- Resists drying for prolonged inking life for more impressions per re-inking
- For Pre-Inked stamps, NOT for stamp pads or self-inkers or FastLight
- Use only with: "W" Pre-Ink Stamps and RC Lipstick Stamps

"W" Water-Base Marking Ink

For Manual Stamping and Self-Inks

- Colors Available: **Black**, **Red**, **Blue**, **Green**, **or** **Purple**
- For Ink Pads and Self-Inking type stamps, NOT for pre-inked stamps
- Premium water-base stamp ink for easy re-inking
- Resists drying for prolonged inking life
- Works well in hot and humid environments
- Available in 2 oz size, quart, or gallon.
- For use with: W FastStamps, Die Plates, Inspection, Regular Rubber and Pads

FastLight Oil-Base Ink

Special Formula for FastLight Brand

- Colors Available: **Black**, **Red**, **Blue**, **Green**, **or** **Purple**
- Quick-dry formula -- dries in 20 seconds or less
- Premium oil-base stamp ink for easy ink/re-ink of FastLight series
- Deep, vibrant colors for your stamp impressions
- Resists drying for prolonged inking life and more impressions per re-inking
- Use only with FastLight Brand Pre-Ink Stamps

FastLight Indelible Ink

Indelible Formula for FastLight Brand

- Colors Available: **Black**, **Red**, **Blue**, **Green**, **or** **Yellow**
- Permanent marking -- requires acetone, alcohol or paint thinner to remove
- For non-porous surfaces such as glass, metal, ceramics, hard plastic, etc
- SAFE for CDs, celophane, soft plastics, glossy photos, polished surfaces, etc.
- Use only with FastLight Brand Pre-Ink Stamps

Special Marking Inks

Non-Porous "W" Super Ink

For Permanent Parts Marking

- Colors Available: **Black**, **Red**, **Blue**, **Green**, **Yellow**, **White**
- Special formula non-porous ink is permanent ink for non-porous surfaces
- Excellent for inspection purposes and permanent industrial parts marking
- Permanent: not affected by oil or water and resists cleaning agents
- Also known as "W" Non-Porous **Permanent** Ink
- Also available in invisible formula: ultraviolet reactive - glows with UV light
- Use only with "W" Super Stamps

Indelible Invisible Ink

For Permanent Parts Marking

For Use with Ultra-Violet Light

- Special formula invisible super ink is permanent ink for non-porous surfaces
- This ink is the U.V. (invisible) version of our Non-Porous "W" Super Ink
- Invisible ink formula is ultraviolet reactive: glows **Orange-Yellow** with UV light
- Excellent for inspection purposes and permanent industrial parts marking
- Completely invisible to regular light \endash perfect for surreptitious marking
- Permanent: not affected by oil or water and resists cleaning agents
- Also known as "W Super" Invisible Ink

Invisible Body Ink

For Use with Ultra-Violet Light

- **Completely invisible to regular light -- only visible under U.V. light**
- Tested and approved for safe use on skin, but recommended only for hands and forearms
- Super fast drying: dry-to-touch within fifteen seconds of application
- Invisible ink formula is ultraviolet reactive: glows **Orange-Yellow** with UV light
- Semi-permanent: water and sweat resistant, but washes off with soap and water
- Self-evaporating: impression will evaporate and disappear in three to five days
- Excellent for entry/exit marking for amusement parks, clubs, fairs, etc.
- Also known as Invisible **Indelible** Body Ink

"W" Ink Reactivator

Rejuvinates Stamp Impression Surface

- Also known as stamp Thinner or "Rejuvinator"
- Removes permanent impression markings made by non-porous permanent inks
- Removes non-porous ink buildup on stamp surface to rejuvinate impression quality

PEG STAMPS

Great for Hard-to-Reach Places

Wood peg for high durability.

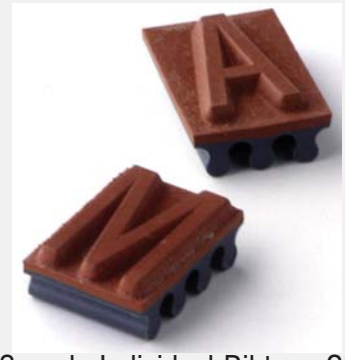
Can be pole-mounted to extend reach.

May be drilled, strapped or glued for complex or unique stamping projects.

Impression surface may be any size and shape -- not constricted by sizing charts.

RIBTYPE TYPE SETS

In the RIBtype® system, ribs on the back of the type interlock with ribs on the marking device. This allows for fast changes of text, which is ideal for date coding and lot number changes. Graphics can also be incorporated in the type for product and brand identification.



Sample Individual Ribtype Characters

Sample of an entire Ribtype Alphabet

Available in Four Basic Typesfaces:

"A" - Regular Typestyle (Trade Gothic Regular)
"B" - Regular, Condensed (News Gothic Roman Condensed)
"U" - Bold (CG Alpin Gothic #3)
"G" - Bold, Condensed (CG Alpin Gothic #1)

See the next page for type samples, sizes and corresponding item numbers

Order by Selecting a type style (A, B, U, or G), and type size from the next page. Once you know your type style and have selected a size, find the correct item number, such as "A17", "B10", "U77", or "G78."

Then, select your type set of choice from the right-most chart on the next page. For example, if you want an Alpha-numeric set, choose the "T" 5A or "T" 3A set. The right-most chart indicates that the "T" 5A set contains 136 pieces, and also shows how many of each character are in this set.

Available in Four Materials for Various Impression Conditions

NATURAL RUBBER: is best for general purpose use with alcohol and water-based inks. It is available in standard 50 durometer or soft 30 duro.

BLACK BUNA: This oil and acid resistant material is best for use with oil-based inks or when the type is exposed to petroleum products.

GREEN PVC: This oil and acid resistant for printing small text on plastic or film and for printing on abrasive surfaces such as Tyvek or brake shoes.

SILICONE: This blue-and-white material is for use with thermal ink-transfer printers and for hot stamping.
